

**MAINLINE**

# Long Pneumatic Test Plugs

## Product Specifications

### FEATURES

- Designed for the testing of pipelines or to temporarily stop the flow
- Designed to be used in a "Y" to block flow from the main sewer line
- Suitable for many different pipe materials
- The Multi-Size Dual Stage Long is designed to release the test media before completely deflating and removing the plug
- Manufactured from a durable natural rubber compound
- Each size comes with a 24" chain and ring assembly attached to a molded inflation valve. Also included with each plug is a 36" Inflation hose.
- Replaceable pressure relief valve installed in top of plug
