

Wax Ring

Product Specifications

Product Description

Wax rings are made with a special blend of petroleum waxes to make a perfect seal between your toilet bowl and the floor drain. They fit 3" and 4" waste lines. Meets Fed. Spec. A-A-3110

Directions for use

- Make sure that the wax ring is at room temperature (about 70°F).
- Remove wax ring of the wrapping.
- Place the wax ring firmly around the discharge opening and press to assure adhesion to the toilet.
- Gently twist to spread the wax and make a perfect seal.
- Tight the bolts carefully to prevent cracking or breaking the toilet bowl.

Physical and Chemical Properties

- Fits 3" and 4" waste lines
- Specific gravity: 0.742 – 0.873
- Melting point: 158 – 203°F 160°F
- Solubility in water: Insoluble
- Odor: Mild petroleum
